Voltage	Run Amps	IES Model#	Amp Range	Setting
600	1.3	LDS-460.600	1.0-1.6	1.3
460	1.6	LDS-460.600	1.0-1.6	1.6
380	2.0	LDS-380	1.6-2.5	2.0
230	3.2	LDS-208.230	2.5-4.0	3.3
208	3.6	LDS-208.230	2.5-4.0	3.6

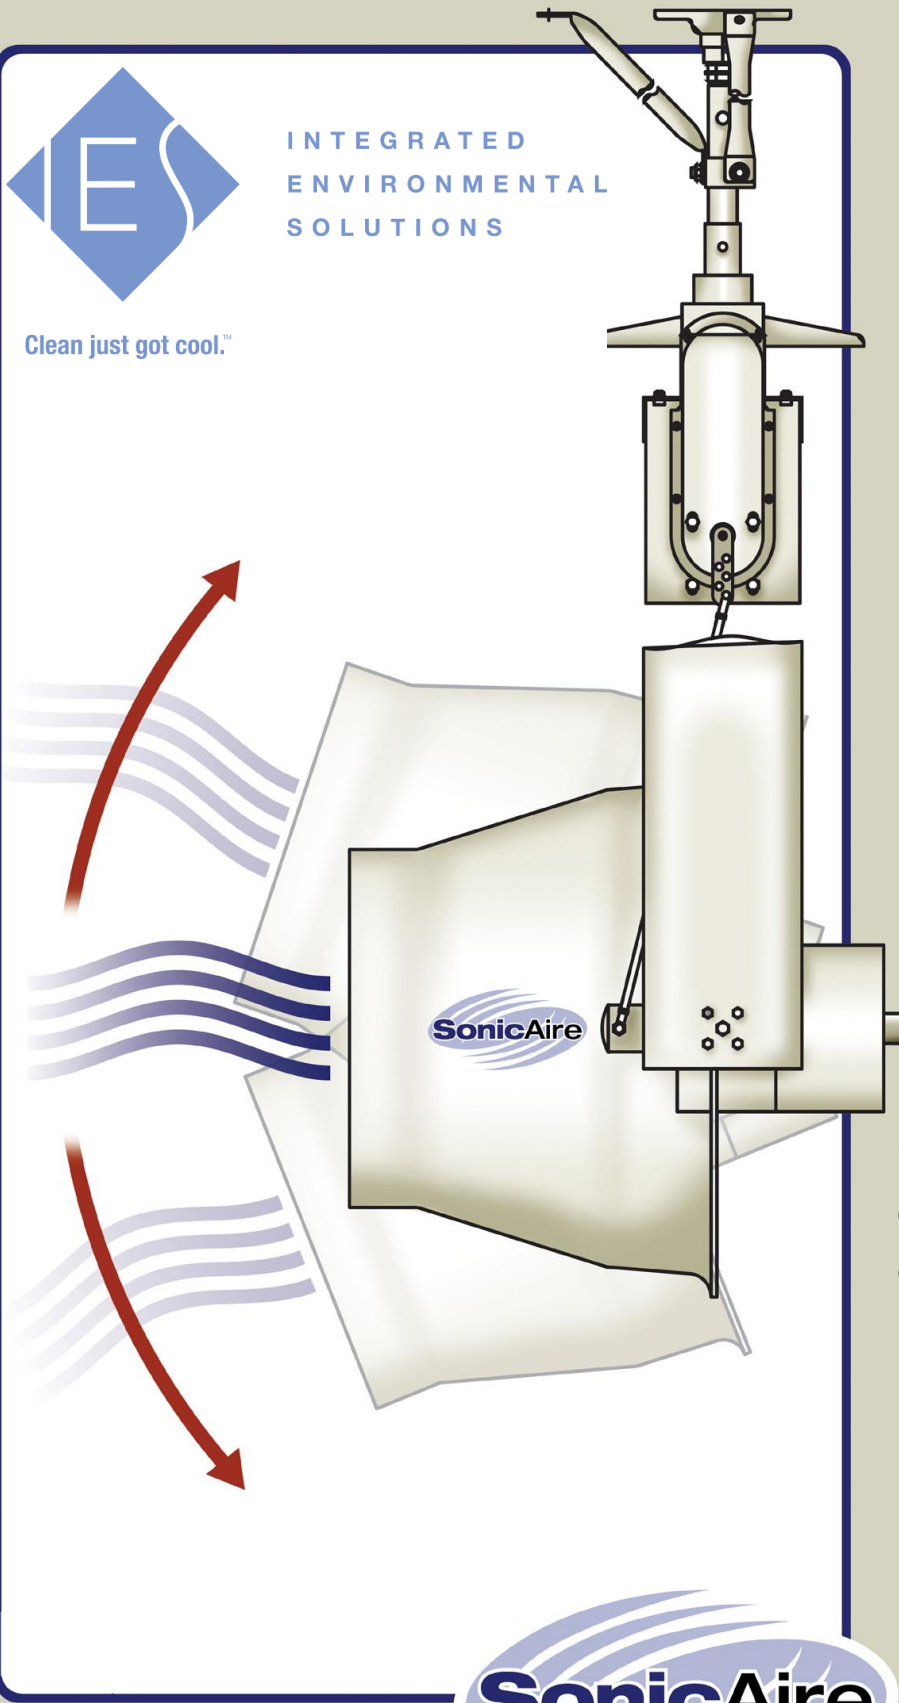

The LDS uses a manual motor starter to provide circuit protection for each SonicAire fan. The MMS is housed in a dust tight enclosure with an E-Stop switch for emergency shut off and maintenance. With the LDS each SonicAire is electrically protected (short circuit and overload protection) and isolated.
